

# Cleanse for Life®

| Tropical Berry liquid | Natural Fruit Flavor powder |

Living in a bubble is not an option. Cleanse for Life is.

In a world where exposure to daily toxins are the norm, Cleanse for Life helps your body as it naturally detoxifies with antioxidant botanicals and vital nutrients.

## What should I know about Cleanse for Life?

Everyday we're continually exposed to toxins in the food we eat, the air we breathe, the water we drink and the items we touch. Cleanse for Life helps give your body the nutrition it needs to cleanse itself naturally. It's designed to feed and nourish your body, unlike other "cleanses" that deplete your body with laxatives or diuretics.

When used as part of the Isagenix Cleansing and Fat Burning System, including maintaining proper diet and exercise, Cleanse for Life helps the body better cope with stress and supports improved mental and physical performance and overall health.

Both powder and liquid versions of Cleanse for Life contain powerful antioxidants like bilberry, blueberry and raspberry, which help protect your body from free radicals and support cardiovascular and brain health.

Cleanse for Life contains pure Aloe vera inner-leaf gel, the most concentrated form of the plant, which promotes a strong immune system, as well as Ionic Alfalfa™, a proprietary alfalfa juice concentrate with a blend of trace minerals, which support the body's functions.

## How can I benefit from drinking Cleanse for Life?

Cleanse for Life helps protect your body from the cumulative damage of environmental toxins and oxidative stress by using antioxidant botanicals, vitamins and minerals—giving you the nutrients you need to live each day to the fullest.

Deep and daily cleansing supports your mental and physical performance, resistance to stress and digestive health.

ISAGENIX®

## How does Cleanse for Life® compare to the competition?

Unlike some one-hit wonder juices that use a single berry as their main ingredient (goji, acai, noni or pomegranate fruits), Cleanse for Life uses a combination of ingredients and nutrients to support the body's natural cleansing process.

## Cleanse for Life Frequently Asked Questions

### WHAT MAKES CLEANSE FOR LIFE UNIQUE?

Cleanse for life is not a colon cleanse or laxative product. Cleanse for Life is different because it nourishes the liver and promotes cleansing the entire body on a cellular level. And unlike other products on the market that may deplete the body of vital nutrients, Cleanse for Life actually nourishes the body as it cleanses.

### WHAT ARE THE DIFFERENCES BETWEEN THE LIQUID AND THE POWDER?

The original Cleanse for Life Liquid and the Cleanse for Life Powder both provide the same nutritional cleansing benefits at the same potency level, with only slight variations in active ingredients. The main differences in the two formulations are the forms. Both are perfect for different lifestyles. The original Cleanse for Life Liquid is already blended, so there is no mixing needed. Alternatively, the Cleanse for Life Powder is portable; you can take the powder with you and mix it with water whenever you want. Both taste great.

### DO I NEED BOTH EVERYDAY CLEANSING AND DEEP CLEANSING?

Nutritional Cleansing is most effective when Cleanse for Life is used as both a daily and deep cleanse. Everyday cleansing aids the body as it naturally removes the impurities you are exposed to on a daily basis. Deep cleansing aids in the removal of contaminants that have collected deep within the body tissues over time. Deep cleansing has the ancillary benefit of promoting weight loss.

### HOW OFTEN SHOULD I USE CLEANSE FOR LIFE?

For everyday cleansing, use 1 scoop powder or 1-2 ounces liquid up to twice daily. For deep cleansing, use 2 scoops powder or 4 ounces liquid up to four times daily, as part of the Isagenix Cleansing and Fat Burning System. For best results, mix the powder with room temperature water, then add ice if desired. A regular cleansing regime can help improve and maintain your overall health and vitality. Refrigerate liquid after opening container.
